EDUCATION

Java Full Stuck development

John Bryce college

02/2021 - 01/2022

Israel

Courses

- Final Project: A coupon managment system allows companies to generate coupons as part of their advertising and marketing campaigns

WORK EXPERIENCE

Full Stack Developer Intern

John Bryce

02/2021 - 01/2022

Tel-Aviv

Achievements/Tasks

- Study and internship. As a Full Stack Developer intern, I actively contributed to the development of web applications, gaining hands-on experience in both front-end and back-end technologies.
- On the front-end, I worked with technologies like HTML, CSS, and JavaScript/TypeScript to create user-friendly interfaces and improve the overall user experience. I also became proficient in using popular front-end libraries and frameworks such as React and Angular.
- On the back-end, I demonstrated expertise in Java language, developing Java applications using Spring Boot, creating RESTful APIs, implementing robust security measures, including authentication, authorization, and encryption, optimizing server performance by implementing microservices architecture, and working with SQL databases.

SKILLS

JavaScript

TypeScript

Java
